

ALD nanosolutions

ALD 2017 was a great conference, full of industry and academic presentations, hallway discussions, and productive collisions among the participants.

The team at ALD Nano is grateful to all the conference attendees who rode the "Green Ride" shuttles to attend our open house and stopped by our booth.

We look forward to continued growth at ALD Nano as this unique industry expands to solve today's and tomorrow's advanced materials challenges.

ALD Nano open house at company headquarters in Broomfield, CO.

ALD Nano founders (Mike Masterson, Professor Al Weimer, Dr. Karen Buechler, and Professor Steve George) at ALD 2017.

Thanks to everyone who dropped business cards in the fish bowl at our booth during ALD 2017 for a chance to win an iPad Mini.

We held the drawing shortly after the conference and congratulations to Jacob Woodruff, Senior R&D Manager for

Deposition Materials R&D at EMD
Performance Materials!
